Eld. Morgan Writes from Athens.

"Athens, Greece, May 23, 1910."
"If I were to try a week I could not begin to tell you about our trip on the yacht. The thing is absolutely beyond my dreams."

"The yacht itself is a beauty. It is admirably equipped in every detail. It has also a notable table service, and I am glad to say I am able to do full justice to the good things. The mirror tells me I am looking unusually well. I am red and brown, too, and must be considerably heavier."

"We sailed all the way from Smyrna a over the bluest of seas and under the fairest of skies. We have seen Delos, Argos, Nyeus, Tyreus, and are now in Athens, the greatest and most beautiful of all."

"As we came into the Bay of Piraeus, the port of Athens. We passed over the water on which the battle of Salamis was fought. We saw where Xerxes sat on the mainland on his silver-footed throne, that he might overlook the battle and see the defeat of the Greeks. We saw the island, that, like a cork, seemed to shut the Greeks in the little harbor and on which Xerxes placed six hundred picked men to slay any who might try to swim to safety from the sinking toremes. We saw the comparatively small sheet of water into which were crowded the 273 boats of the Greeks and the three to five hundred boats of the Persians."

"Themistocles had been hindered by his wavering allies from other Greek (Continued on Page 8.)"

Police Court.

Thomas Smith, who was arrested and jailed Saturday night by Officer Bishop, after he had been beaten almost into insensibility by a member of the yard crew of the L. & N. yards in South Paris after he had provoked the assault, was before Judge January yesterday and was assessed a fine of \$7.50.

Ernest Small, who is charged with cutting Bessie Gilkey was held to await the action of the grand jury, in the sum of \$100 bond. Sandy Warfield was fined \$7.50 for drunkenness.

Saturday afternoon Judge January disposed of the cases of Claude Haines and Frank Wilson. Both men were charged with provoking an assault and a fine of \$12.50 was entered in each case.

Fine Resident Section.

Kentucky Crop Report for June.

The June crop report for Kentucky was compiled by the Commissioner of Agriculture M. C. Rankin, is as follows:

"One of the best crops of oats that has been raised in Kentucky for the past ten years is shown by the crop reports for this month and a larger acreage is shown. The reports show that this crop has suffered less from excessive rains and cool weather than almost any other crop and with plenty of sunshine and dry weather for harvesting the crop the farmers will derive more from the present crop than from any crop for many years. The condition shows a percentage for the whole state of 94.

"The largest acreage of tobacco is reported as having been planted than for many years on account of being set late, and with favorable weather conditions there should be more pounds of tobacco raised per acre, yet the quality, no doubt will be somewhat inferior.

"The early potatoes are fine and a large acreage of both early and late has been planted. The reports show for the whole State a condition of 97 per cent.

"Clover like oats, has suffered little from excessive rains except for damage done while harvesting. The yield per acre promises to be exceptionally good. As for Alfalfa, the condition is good where it has been tried and a stand secured. On account of mistaken ideas concerning the growing of alfalfa few attempts are being made to increase the acreage of this, the best of all crops for feeding.

"The interest in growing cow peas in the State is on the increase, yet we cannot see why every farmer should not realize the great benefits to be derived from the growing of cow peas not only as an excellent hay crop, but as a soil restorer and as a maintainer of soil fertility.

"There remains much wheat to be cut. Some fields are very irregular and thin. Some fields that looked badly three weeks ago have turned out fairly well. The rust has affected the wheat but little and no reports of 'scab' have been made, as there were at this time last year. The condition of wheat as shown by the reports is 80 per cent of an average crop.

"Corn is an ounce throughout the State as somewhat discouraging and is at least ten to fifteen days late. The cool rainy weather has retarded the growth of the early planted corn considerably, causing a great deal of it to be planted the second time, which is considerably lower than an average crop of preceding years.

"On account of the warm March and the frost and cool weather in April in connection with the heavy rains beating off the leaves of the trees, there is practically but 40 per cent of a full fruit crop this year. The early apples in many places have done fairly well, but many were worm eaten and fell off the trees before maturity. The codling moth and fungus diseases seem to have been increasing due to negligence on the part of the farmer in the use of proper spraying. There are not many late apples, they suffered most from the climatic changes from which the early apples largely escaped. Some of the counties showing a good apple crop are Graves, Hickman and Muhlenberg. The peach crop reports show about one half of a crop in Crittenden, Graves, and Muhlenberg counties are good. Throughout the mountain section of the State, other fruits, such as pears, plums and grapes and small fruits, are as a whole about one half a crop.

"Eggs are worth an average price throughout the State of 17 cents per dozen. Poultry ranges from 9 to 15 cents per pound. Hot weather and heavy storms have caused a great destruction of the smaller chickens and loss through diseases."

A Hard Proposition.
Anxious Father—"I wish I knew what to do with my son!" Business Friend—"What is he like?" Anxious Father—"Well, they say he's very like me." (Silence.)

End of the Courtship.
"She referred me to her father." "And what did he say?" "He said that was her way of letting undesirable suitors down easy, and gave me a five-cent cigar."

Forewarned.
Mother—"But why are you afraid to kiss Miss Edie?" The Family Terror—"Because when pa kissed her the other day on the staircase she slapped his face."

Wise Advice.
Strew human life with flowers! Save every hour for the sunshine! Exalt your souls! Widen the sympathies of your hearts! Make Joy real now to those you love!—Richard Jeffries.

Truth Must Be Instilled.
It should not be necessary to teach a child to tell the truth; but it is.

So It Wouldn't.

Little Ruth found that the horse had stepped on and broken the leg of one of her little chickens. Looking up at the horse, she said reproachfully: "Oh, Bess, how could you be so carelessness? Why, this little chicken wouldn't step on you and hurt you like that for anything."—The Delinquent.

Chinese Moon Worship.

In China, moon worship still exists and the Chinese say that the man in the moon arranges marriages and ties together with an invisible silken cord the youths and maidens whom he intends to unite; he is evidently the creator of the honeymoon.

The First Step.

"Now, young man, since you are going into the diplomatic service, let me advise you; if you know anything, don't tell—and if you know something, keep your mouth shut or you will make a blunder."

Thoughtful George.

Miss Sweet—"It is just the sort of engagement ring I preferred. None of my others were nearly so pretty. How thoughtful of you!" George—"Not at all, dear. This is the ring I always used."—Kansas City Journal.

One on Dad.

Father—"What makes you so extravagant with my money, sir?" Son—"Well, dad, I thought you wouldn't like to spend it yourself after working so hard for it."—Boston Transcript.

Armor.

"Do you wear glasses because your eyes are defective or because you think they add to your appearance?" asked the outspoken woman. "For neither reason," replied the patient man. "I wear them to protect my eyes from hat pins."

Lacking Something.

"Dey say dat dis yegg-radium can turn a cullud pusson white," said Uncle Rastus; "but it can't make a complete an' finished job on it unless it kin wipe out his appetite fo' polly, pu'simmons, an' 'possum."

Making Life Safer.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts. He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion originate in unclean stomachs. Blood diseases are found where there is unclean blood. Consumption and bronchitis mean unclean lungs.

Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and clean, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

Kenyon \$15 Men's Suits

When you seek ECONOMY, ask your merchant to show you this \$15 Suit. Compare it with one that costs \$25 and see wherein lies the difference. It does not lie in the wearing qualities, surely, not in the style and fit. The great difference is one of price, caused by more than one reason—made in the largest factories of their kind in the world.

Good in Being Well Dressed.
 Carelessness in the matter of clothes undoubtedly lowers a man in his own estimation. I don't believe there is a man alive who can preach a good sermon or can be an effective and skillful doer of any good work, if he is conscious that his linen is soiled and his clothes are ill-fitting and worn. There is about the ill-clad man a sense of incompleteness that shears him of his personal power and magnetism.—Dr. Madison E. Peters.

The Smallest Tree.
 Naturalists say the smallest tree in the world is the Greenland birch. This miniature tree grows to a height of less than three inches, although it spreads over a radius of two or three feet.

Free Remedy For Weak Bowels

There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself; the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness.

This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstructions. To do this you must have one or two movements of the bowels each twenty-four hours. If your system does not do this naturally, in the process of eating and drinking, then you must obtain aid of some kind. After finding out that cathartics, salts and such things relieve you for a day, but bind you up worse than ever the next day, then try a simpler and more natural remedy like Dr. Caldwell's Syrup Pepsin.

For the skeptical the best way to begin is to send your name and address to Dr. Caldwell for a free sample bottle. Use it as directed and if it convinces you that a brief continuance of its use will relieve you permanently—that it will train the stomach and bowel muscles to again work naturally at certain hours—then buy it of your druggist at fifty cents and one dollar a bottle, just as so many others are doing. They began with a sample bottle, then bought a fifty cent bottle, and now, fully convinced of its merits, they buy the one dollar family size. All the members of the family can use it down to the very youngest.

A brief use of this grand laxative tonic will cure constipation in its worst form, indigestion, liver trouble, sick headache, sour stomach and such ailments and keep you in continuous good health at a very small cost. Such is the experience of many families like that of Mrs. Oscar Fleener, Unionville, Ind. J. F. Daniel, Saron, Tex., and hundreds of others that could be named.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R.500 Caldwell building, Monticello, Ill.

China's Destructive River.

The Hoang-ho, the "Yellow river," of China, is probably the most destructive of rivers. In one flood it is believed to have killed 1,300,000 persons. It cut a new channel to the sea through hundreds of miles of densely populated country and swept away more than 1,000 villages.

Soft Coal in Chile.

In the vicinity of Concepcion and Taltahuano, Chile, there are more than 80,000,000 cubic meters of soft coal of fair quality within an area of 80,000 square meters, or about 30.7 square miles. The vein is 3.5 meters, or about 11.5 feet thick.

A Difference.

As soon as people become easy marks, the trust magnates and politicians tell you public confidence is restored; and when the people get wise to themselves, and realize that they are being fooled, the same fellows call it a crisis.—Puck.

Extreme Egotism.

Some men have an exaggerated notion of their own importance they think they should be promoted fast enough for their salaries to keep up with the increased cost of living.—Aitchison Globe.

Quick Returns.

"You said you were going into some business that would bring you quick returns." "I did," answered the young man with ink on his fingers. "I am sending manuscripts to the periodicals."

Didn't Stand to Reason.

Editor—"What! Another manuscript?" Assistant—"Yes; 'Overheard at the Sewing Circle'—475 words." Editor—"Nonsense! Return it at once! There must have been many more words than that."—Lippincott's Magazine.

A Chance to Escape.

"Do you expect to have a garden this year?" "No, my wife says she is going to spend most of the time with her people down in Massachusetts, so I shall be here alone."

Not to Be Believed.

"The court does not see the necessity for according you time to speak on behalf of your client, since he has formally confessed his guilt." "Only a moment, your honor," insisted the lawyer. "I only want to call your attention to the fact that my client is an awful liar."—Philadelphia Ledger.

His One Chance.

The popular opinion of a critic is of one who has not learned any science or succeeded in any art, and is therefore empowered to sit in judgment on those who have. "Can you sing?" asked the maestro of the aspiring pupil. "No!" "Can you play?" "No!" "Then I don't see anything for you but to teach music."

The Boss of the Place.

"Yes," said the determined man, "when that waiter resented the smallness of my tip I took the case to the proprietor of the restaurant." "And what did the proprietor do?" "He gave the waiter some money out of his own pocket and apologized to him for having such a customer."

Flattering!

BASE BALL.

SATURDAY.

In a slow but interesting game at White Park Sunday afternoon Paris defeated the Shelbyville club by a score of 4 to 2. Winchell, who was on the mound for the locals, had things his own way throughout the contest not allowing a single hit until the seventh inning.

Becker pitched great ball till the fifth, only one hit being secured off his delivery in the first four sessions. The locals sized up his curves and in the fifth put three runs over the rubber. Maxwell grounded out to short followed by Lewis and Winchell, who made clean drives for a base. Kuhlman was walked filling the bases. McKernan drove the sphere to center for a nice one, Lewis and Winchell scoring and Kuhlman taking second. Kaiser hit a high one to Glenn and was out. Goodman then plunked one to center scoring Kuhlman.

In the sixth the Bourbonites added another. Hicks led off with a safe drive to center and stole second. Maxwell fanned and Lewis flied out to White. Winchell picked out a good one which he landed close to the center field fence for two bases, Hicks scoring.

The visitors came up in the seventh and scored two runs. White drew a pass and G. Long fanned. Seebach singled to left, White taking second. The rain which had been threatening began to fall at this point and with two men on bases play was suspended for fifteen minutes during which time a light shower fell. The game was resumed and Kuhn flied out to center. Thau drove a hard liner to left for two bases, scoring White and Seebach.

This ended the hitting and run getting of the visitors as Winchell steadied down for the remainder of the contest. Score:

Shelbyville.....0 0 0 0 0 2 0 0-2
Paris.....0 0 0 3 1 0 0 x-4
Batteries—Paris, Winchell and Hicks
Shelbyville, Becker and Thau. Hits—Paris 9; Shelbyville 2. Errors—Paris 2; Shelbyville 1. Earned runs—Shelbyville 1; Paris 2. Two base hits—Winchell, Thau. Sacrifice hits Kuhn. Stolen bases—White, Hicks. Bases on balls—off Winchell 4; Becker 3. Struck out—Winchell 11; Becker 4. Left on bases—Shelbyville 4; Paris 7. Time—2:10. Umpire—Wilkinson.

NOTES.

Only in one inning were the Millers able to connect with Winchell. He showed a wonderful amount of speed. Besides this he secured two of the nine hits one of which went for an extra base, however he went too far in attempting to stretch it into a three bagger and was thrown out at third.

Kaiser only had one chance but it was a hard one. In the seventh when two men were on bases Kuhn hit a long fly to right center which Kaiser took after a long run and by a quick and accurate throw held the runners on the base.

Kaiser and Winchell were both there with the big end of the stick, pounding out two hits each.

Becker kept the Bourbonites guessing until the fifth inning when Lewis started the ball to rolling by landing a beauty to center.

Maxwell and Hicks made the only two plays credited to the locals. Neither of them was costly, however, and the visitors were not benefitted as a result.

Every player on the club touched Becker for a hit with the exception of Barnett and Maxwell. It is evident that the pitchers in this league do not take to the idea of putting the ball over the pan for either of them.

Shelbyville introduced two new players Saturday in First Baseman White, formerly of Indianapolis, and Catcher Thau, of Cincinnati, both of whom did excellent work.

Lewis, who covered left field for the locals, is a new recruit and showed up well making a clean single and running the bases like a deer scoring one run.

SUNDAY.

Poole had the Pioneers' goat again Sunday afternoon, when backed by the almost perfect support of the Bourbonite aggregation he pitched the Bourbonites to victory, winning by a score of 8 to 0. At critical stages when the situation looked threatening he settled down and disposed of his opponents with ease.

With the exception of two innings Allison pitched excellent ball. In the first session eight of the Bourbonites faced him and by consecutive hitting four runs were counted for the locals. Kuhlman, the first up fanned. McKernan started the slugging by a clean singled to right followed by Kaiser, Goodman and Barnett who planted the sphere safely in the center garden, counting for three runs. Barnett took second on Hicks' grounder to Morton when the latter fumbled the ball and scored when Lewis dropped a neat one behind the second sack.

In the sixth session the visitors looked dangerous but it was only for a short time. Maloney was the first up and led off with a clean single to left followed by Whitaker who landed on the ball for two bases. By quick fielding Maloney was prevented from scoring on the hit. The next three men went out in order.

Again in the eighth inning four white-suited Bourbonites trotted across the home plate, when two hits and as many errors allowed the four tallies. McKernan hit safely for the third time and reached second when Kaiser laid down a neat one between the pitcher and home plate, which Allison threw wild to second. Goodman repeated the performance and Allison threw wild to White, the ball rolling to right field, on which McKernan scored. Kaiser taking third and Goodman second. Evidently afraid Barnett would lose the balls and preferring to take a chance on getting Maxwell, Allison purposely walked the first sacker filling the bases, while Maxwell by a single to right scored Kaiser and Goodman, Barnett taking third and scoring on Hicks' grounder to Olson who retired Maxwell at second. The score: Paris.....4 0 0 0 0 0 4 x-8
Richmond.....0 0 0 0 0 0 0 0-0

Batteries—Paris, Poole and Hicks; Richmond Allison and Elgin. Errors—Paris 1; Richmond 3. Hits—Paris 9; Richmond 6. Earned runs—Paris 8; Richmond 0. Bases on balls—off Allison 2; off Poole 1. Struck out—by Poole 9; by Allison 7. Wild pitch—Poole. Left on bases—Paris 4; Richmond 6. Stolen bases—Maxwell, Olson. Sacrifice hits—Hicks. Goodman, Kaiser. Time—2:05. Umpire—Knapp.

NOTES.

McKernan led the bunch in batting, getting two singles and a two bagger out of four times up. He handled four chances without an error and had as many putouts.

Jeff Elgin did the backstopping for the visitors and led off in the second inning with a clean hit to center. He failed to get any farther however, as Poole worked effectively on the next three men up.

Maxwell got to hits out twice as many times up, which sent in two of the runs.

Nine of the Pioneers who faced Poole went out on strikes. Allison worked seven of the Bourbonites at the same game.

Ollie Chapman, the outfielder recently released by the Colts and who was signed by Paris, was seen in uniform Sunday.

In the fourth inning Poole hit a hard liner toward Allison that was too hot to handle. However he recovered the ball in time to retire the runner at first.

Kaiser had several hard chances in the field which he took with but little difficulty. As usual he pulled off some fine base running stunts.

Allison's two bagger in the seventh came after two men were down and Olson retired the side by fouling to Hicks.

The catching of Hicks' is attracting considerable attention. He goes after everything and his efforts usually prove successful.

Ollie Chapman, outfielder, recently released by the Lexington club has been signed by the Paris club.

MONDAY.

Paris lost yesterday to Lexington on the latter's grounds in a game full of wrangling upon the part of the Colts. The Bourbonites opened the initial inning with vim and dash that indicated victory at the close.

The locals scored one run Kuhlman opening with a corking drive for two bases. The Colts went them one better and in fourth the Bourbonites tied the score. During the first four sessions several close decisions came up to which the members of the Lexington aggregation made strenuous objections. In the fifth Yancey led off with a drive to center which he tried to stretch into a three bagger and was called out by Umpire Knapp.

The beefing manager rushed toward the umpire and shoved him violently with both hands. Other Lexington players joined in and things looked threatening for the umpire when a policeman took charge and escorted the infuriated

Yancey to the bench.

Yancey was fined three different times for a total of \$20 and put out of the game. Spectators who witnessed the game were disgusted with Yancey's ruffianism many fans joining in the general disapproval of such tactics. A costly error by Kaiser when in the sixth, with a Colt on second and third and two down, he dropped a fly ball, both men scoring. Another run was put over as a result of an error by McKernan and a timely hit by Myers. Rain then began falling in torrents, putting a stop to further play, the final score being 5 to 2.

Escaped Prisoner Captured.

Jailer Joe Farris went to Cynthiana yesterday, returning with Carl Clarke, an escaped prisoner. Clarke was working out a fine at the city quarry and Saturday afternoon made his escape. Officials of surrounding towns were telephoned to be on the lookout for him. Saturday night Jailer Farris received the information that he had been captured in Cynthiana by Chief of Police Hughes. He went to Cynthiana yesterday morning and took charge of the prisoner lodging him in the Paris jail.

Highland Place, the new addition to Paris, which is being opened up by Messrs D. S. Henry and Reuben Hutchcraft, Jr., is by far the most desirable place for a home of any of the new additions yet opened up here. They have recently graded Sixteenth street through their property, and contracted for several thousand feet of concrete walks which will make this an attractive place to reside. The neighborhood is first-class and more improvements are being made in this section than any place around Paris. It is within one square of the car line and three squares from the improvements now being made by the L. & N. railroad and in easy walking distance of the business district. Take a walk out to see the addition and you will be well pleased.

Parisian Has Narrow Escape.

The Lexington Leader of Monday, contained the following:

"Bob" Goggin, one of the best known traveling salesmen for Bryan Goodwin & Hunt, wholesale grocers, had a narrow escape last Thursday from death, or probable fatal injury. At Vaughan's Construction Camp, between Versailles and Frankfort, Mr. Goggin was in the company commissary selling a bill of goods, standing talking to the clerk when a blast two hundred feet away went off.

"A large pointed rock, which was thrown into the air by the force of the blast crashed through the roof of the commissary, and falling passed between Mr. Goggin and the clerk tearing a hole in the floor at their feet. The missile barely grazed Mr. Goggin's hat brim, and had it veered a few inches either way would have struck Mr. Goggin or the clerk."

Craven Held to Grand Jury.

Wm. Craven was before Judge Dundon yesterday charged with appropriating to his own use and benefit the property of another, and pleading guilty was held to await the action of the grand jury in the sum of \$400 in default of which he was remanded to jail. Jack Cooper will have a hearing this morning.

Cooper, it is alleged, accompanied by Craven, came to Paris Monday, county court day in a rig which they hired from Wilson & Rickey, of Lexington. Not returning Mr. Rickey came to Paris Tuesday, and found their horse and buggy in the hands of Thomas Bros. who operate a clothes cleaning plant. The latter had traded a horse and buggy to Cooper and Craven for the one which they represented to be their property, paying the men the sum of \$50 difference. After making the trade they disposed of the horse and vehicle which they procured from Thomas Bros. for much less than it was worth and left Paris. Rickey proved the ownership of the rig and returned to Lexington.

Patrolman Chas. T. Thomas went to Lexington Friday and brought back Cooper who had been placed under arrest there. Craven was captured in Winchester Saturday by Officer Ballard and landed in the Paris jail.

Victim of Peculiar Accident.

Charity Johnson, an aged and respected colored woman residing in the neighborhood of Currentsville five miles from Paris on the Peacock pike met with a peculiar accident Sunday afternoon from the effects of which she died a few hours later.

The colored woman came to town Sunday afternoon to attend a funeral and returning late in the afternoon lost the key to her home. She entered the house through a window and it is supposed was in the act of returning toward the city in search of the missing key.

When half way out of the window in some manner the sash fell, striking her across the small of the back. Being of immense stature the unfortunate woman was unable to extricate herself and was held in this position for several hours before her predicament was noticed and she was removed by friends in an unconscious condition. She never regained consciousness.

"Aunt" Charity, as she was familiarly called, was about 70 years of age, and was a relic of slave time, belonging to the late Mr. W. B. Whaley, of near Clintonville.

The party which includes Conductor Hibler, W. E. Watkins, Leon Squires and T. M. Russell, left Maysville Sunday morning at 6 o'clock in an automobile, and before returning will visit Detroit, Buffalo, Niagara Falls, Erie and Pittsburgh.

Police Court Records.
A total of 123 arrests were made by the Paris police department from January 1, to July 1, 1910. Of this number 18 were made during the month of June as indicated by the advance report of Police Judge E. B. January which will be read at the meeting of the City Council, Thursday night.

The total amount of fines imposed during the month aggregated \$235. Of this amount \$84 was paid in cash, \$40 replevied and \$11 worked out. The remainder which was suspended, carried with it the hasty departure of those fined from the city not to return within a period of one year.

A Popular, Desirable and Growing Section.
Highland Place, the new addition to Paris, which is being opened up by Messrs D. S. Henry and Reuben Hutchcraft, Jr., is by far the most desirable place for a home of any of the new additions yet opened up here. They have recently graded Sixteenth street through their property and constructed for several thousand feet of concrete walks which will make this an attractive place to reside. The neighborhood is first-class and more improvements are being made in this section than any place around Paris. It is within one square of the car line and three squares from the improvements now being made by the L. & N. railroad and in easy walking distance of the business district. Take a walk out to see the addition and you will be well pleased.

Parisian Has Narrow Escape.
—The Lexington Leader of Monday, contained the following: of the "best known traveling salesman for Bryan Goodwin & Hunt, wholesale grocers, had a narrow escape last Thursday from death, or probable fatal injury. At Vaughan's Construction Camp, between Versailles and Frankfort, Mr. Goggin was in the company commissary selling a bill of goods, standing talking to the clerk when a blast two hundred feet away went off.

"A large pointed rock, which was thrown into the air by the force of the blast crashed through the roof of the commissary, and falling passed between Mr. Goggin and the clerk tearing a hole in the floor at their feet. The missile barely grazed Mr. Goggin's hat brim, and had it veered a few inches either way would have struck Mr. Goggin or the clerk."

Manager Porter a Philanthropist.
Manager R. S. Porter of the Paris Grand is fast getting into the Andrew Carnegie class. For several weeks past he has been giving away valuable presents each Saturday night, but on next Saturday night he is going to excel all his past performances. On that night he announced he would give away ten valuable articles, any one of which is well worth the effort of securing. He will give away tickets at each performance this week and last night had the ten articles on exhibition. They range from silverware to clothing to suit everyone. It is safe to say that Mr. Porter will keep up his record for big houses during the present week at least. Don't miss a night.

Craven Held to Grand Jury.
Wm. Craven was before Judge Dundon yesterday charged with appropriating to his own use and benefit the property of another, and pleading guilty was held to await the action of the grand jury in the sum of \$400 in default of which he was remanded to jail. Jack Cooper will have a hearing this morning.

Cooper, it is alleged, accompanied by Craven, came to Paris Monday, county court day in a rig which they hired from Wilson & Rickey, of Lexington. Not returning Mr. Rickey came to Paris Tuesday, and found their horse and buggy in the hands of Thomas Bros. who operate a clothes cleaning plant. The latter had traded a horse and buggy to Cooper and Craven for the one which they represented to be their property, paying the men the sum of \$50 difference. After making the trade they disposed of the horse and vehicle which they procured from Thomas Bros. for much less than it was worth and left Paris. Rickey proved the ownership of the rig and returned to Lexington.

Patrolman Chas. Thomas went to Lexington Friday and brought back Cooper who had been placed under arrest there. Craven was captured in Winchester Saturday by Officer Ballard and landed in the Paris jail.

Victim of Peculiar Accident.

Charity Johnson, an aged and respected colored woman residing in the neighborhood of Currentsville five miles from Paris on the Peacock pike met with a peculiar accident Sunday afternoon from the effects of which she died a few hours later.

The colored woman came to town Sunday afternoon to attend a funeral and returning late in the afternoon lost the key to her home. She entered the house through a window and it is supposed was in the act of returning toward the city in search of the missing key.

When half way out of the window in some manner the sash fell, striking her across the small of the back. Being of immense stature the unfortunate woman was unable to extricate herself and was held in this position for several hours before her predicament was noticed and she was removed by friends in an unconscious condition. She never regained consciousness.

"Aunt" Charity, as she was familiarly called, was about 70 years of age, and was a relic of slave time, belonging to the late Mr. W. B. Whaley, of near Clintonville.

Honey's Many Virtues.

"Honey, one of the most nutritious and delicate of foods, should be eaten more than it is," writes a cooking expert. "Bought in the comb, it is bound to be unadulterated, and will keep one free from sore throat and bronchial troubles. I know a number of women who use honey as a cosmetic. They apply it to the skin, rub it in well, then wash it off with hot water. The result is a finer-textured complexion, a glowing color, a young, fresh look."

Male Friendship.

Remarks have been made lately as regards the apparent decline of close personal friendships between men. Perhaps something in our busy modern life accounts for our lower note in masculine friendships. Perhaps, too, much that belonged to interchanges between man and man, is now possible between woman and man as equals.

Had No Opinion.

An attorney said to an Irishman, his client: "Why don't you pay me that money, Mr. Mulrooney?" "Why, faith, because I do not owe it to you." "Not owe it to me? Yes, you do. It's for the opinion you had of me." "That's a good un, indeed," rejoined Pat, "when I never had any opinion of you in all of my life."

A Wretched Mistake.

to endure the itching, painful distress of piles. There's no need to. Listen. "I suffered much from piles," writes Will A. Marsh, of Silver City, N. C., "till I got a box of Bucklen's Arnica Salve, and was soon cured." "Burns, boils, ulcers, fever sores, eczema, cuts, chapped hands, chilblains, vanish before it. 25c at Oberdorfer's."

New York's Truancy Problem.

Truancy is on the increase in New York city, and the board of education complains of the indifference of parents. About 120 parents are taken before the city magistrate each month for violating the law. The largest number are from among the Italians, where there are the most children, and the next highest number comes from native born parents.

Saved at Death's Door.

The door of death seemed ready to open for Murray W. Ayers, of Transit Bridge, N. Y., when his life was wonderfully saved. "I was in a dreadful condition," he writes, "my skin was almost yellow; eyes sunken; tongue coated; emaciated from losing 40 lbs., growing weaker daily. Virulent liver trouble pulling me down to death in spite of doctors. Then that matchless medicine, Electric Bitters, cured me. I regained 40 lbs. lost and now am well and strong." For stomach, liver, kidneys its supreme. 50c at Oberdorfer's.

Mesopotamia to Boom.

Egypt, whose climate in winter is quite similar to that of Mesopotamia, is the goal each season of vast numbers of tourists and other visitors. This country of Mesopotamia and Babylonia is not less interesting from the view point of antiquarians and archeologists, while to the business man and capitalist it offers even more of interest, for it is apparently just on the verge of tremendous commercial developments.

A Wild Blizzard Raging

brings danger, suffering—often death—to thousands, who take colds, coughs and grippe—that terror of winter and spring. Its danger signals are "stuffed up" nostrils, lower part of nose sore, chills and fever, pain in back of head, and a throat-gripping cough. When grip attacks, as you value your life, don't delay getting Dr. King's New Discovery. "One bottle cured me," writes A. L. Dunn, of Pine Valley, Miss., "after being 'laid up' three weeks with grip." For sore lungs, hemorrhages, coughs, colds, whooping cough, bronchitis, asthma, its supreme. 50c, \$1.00. Guaranteed by Oberdorfer's.

In Youth and Age.

He that would pass the latter part of life with honor and decency must, when he is young, consider that he shall one day be old; and remember, when he is old, that he has once been young. In youth he must lay up knowledge for his support when his powers of acting shall forsake him; and in age forbear to animadvert with rigor on faults which experience only can correct.—Dr. Johnson.

Skin and Scalp Troubles Yield to Zemo.

A clean liquid preparation for external use. W. T. Brooks' drug store is so confident ZEMO will rid the skin and scalp of infant or grown person of pimples, blackheads, dandruff, eczema, prickly heat, rashes, hives, ivy poison or any other form of skin or scalp eruption, that they will give your money back if you are not entirely satisfied with the results obtained from the use of ZEMO.

The first application will give prompt relief and show an improvement and in every instance where used persistently, will destroy the germ life, leaving the skin in a clean, healthy condition.

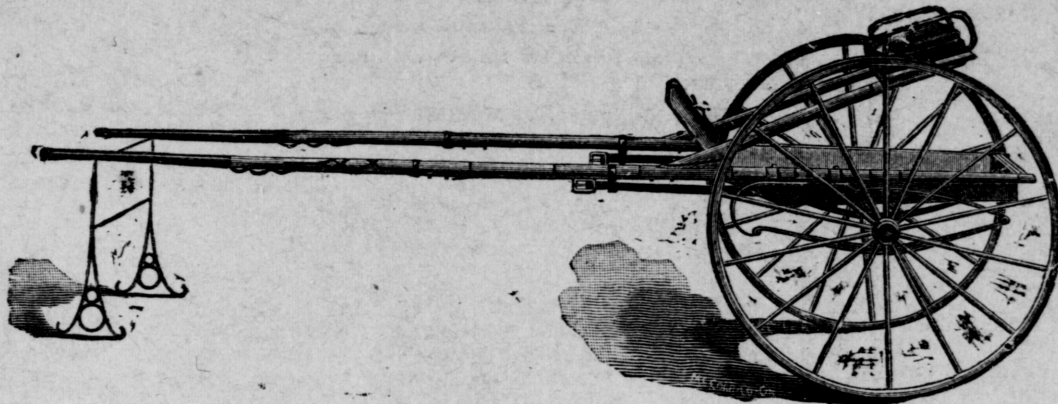

True Stuff.

"Here's a good one for your collyum," burred a man who broke in the door of our office yesterday. "I went to a banquet the other night. There were four wine glasses at my plate, but when I looked at the menu I couldn't find a wine. So I asked the waiter. He says: 'The menu is to take home to your wife. The glasses will be in use, all right.' Gee! Ain't this a good old world!"

WALTER A. WOOD MOWERS

Are Different From All Others

When the late Walter A. Wood built his first mower in 1882 it was upon a principle entirely different from any other. That same principle today distinguishes our mowers from all others. It is the "floating frame" described so fully in our catalog. All manufacturers of mowers admit that the "direct under-draft" principle is the correct one—but they can't use it because genuine underdraft is possible only with the "floating frame" construction which is exclusive to Walter A. Wood Mowers. We feel justified in asserting that our mowers are: the easiest running; lightest draft; handiest to operate; least expensive to keep in repair; and longest lived. The mower that leads in these points is the mower it will pay the farmer to buy. There are many other good points fully illustrated and described in our Catalog. Write for it today.

A Diet of Wild Honey.
Wild honey as a change is an
agreeable sweetmeat, but after a few
days constantly partaking of it the
European palate rejects it as nauseous
and almost disgusting. Our experience
extended over a fortnight, during
which period our food consisted solely
of it and maize. It has escaped the
Biblical commentators that one of the
principal hardships that John the
Baptist must have undergone was his
diet of wild honey.—National Geo-

Buick

"17"

4,600 Miles Without Repairs of Any Kind.

OFFICE OF
SHERIFF OF HAMILTON COUNTY.

HENRY W. HAMANN, Sheriff.

CINCINNATI, July 7, 1910.

The Leyman-Buick Co. Cincinnati, Ohio.

Gentlemen:—Having traveled about 4,600 miles in the "Buick"
that I bought from you some four months ago, and as yet being un-
acquainted with the appearance of the interior of a repair shop, I can
not refrain from voicing my approbation of the "Buick" Model 17.

There may be a better car for the money, but if there is I have
never met it on the road, either up hill, down hill or on the level.

Yours respectfully, HENRY W. HAMANN.

At Indianapolis Speedway last week BUICK stock cars defeated the flower of American cars in
the 50 and 100 mile trophy races, winning them in fine style and smashing all stock car world records.
The BUICK finished 75 yards behind the winner in the 400 mile Cobe Trophy race after losing
80 seconds on account of tire trouble.

Here's the Limit.

We don't mind hooking her waist,
looking to see if her white skirts
show, and if her hat is on straight;
we don't mind pinning up a veil now
and then and cleaning the mud off
her rubbers, but when it comes to
holding one end of a store switch
while she braids it, we think the limit
has been reached, and it's time for us
to assert our independence.—Detroit
Free Press.

New Yorkers Fond of Candy.

Father Knickerbocker has a remark-
ably sweet tooth. Candymakers say
that more of their product is eaten in
New York than in any other city in
the world and more than in any other
three cities on this continent. Men
show almost as great fondness for it
as women do, and many shops in the
business sections are patronized al-
most exclusively by them.

Look Upward.

Morbid fancies, diseased imaginations
and distorted perspectives are the re-
sults of looking into the pit of shame
and folly. Impelling impulse, compell-
ing purpose toward the true, the
beautiful and the good, flow from pure
feeling, high thinking and slow living.
That man sees life truly who gains
what is best and most uplifting from
his living, he who has strengthened
his soul by contemplation of the
great and good things which bless our
humanity.

Ancient "Property" Teeth.

The artificial teeth of ivory, bone
or wood found while making archaeo-
logical explorations seem to have been
designed for cosmetic purposes ex-
clusively. Like stage "props," they
were meant to be gazed upon; to fill
the eye, to lend enchantment to a
smile, they masqueraded efficiently,
but when the owner got down to the
serious business of eating they were
removed.—New York Medical Journal.

Heat the Knife Blade.

To spread the hardest butter easily
on the thinnest bread, have a cup of
boiling water handy, into which dip
the point of the knife each time be-
fore cutting a piece from the butter.
This renders it just right for spread-
ing evenly. New bread or cakes can
be cut without jagged edges if the
blade of the knife used be heated for
a second in a clear fire.

Note for the Girls.

Statistics show that baldness and
higher education go together. In other
words, the woman with a haystack
of hair on her head doesn't know as
much as the woman with a coiffure
of doorknob size.—Atchison Globe.

Game for Children.

Geographical letters is a good game
for older children. A bowl filled with
letters is placed in the center of the
table. All the players seat themselves
and the leader draws a letter, throw-
ing it face upward on the table. The
one who first calls out the name of a
town beginning with that letter is en-
titled to the letter. When the bowl is
empty the players count their letters
and the one who has the most wins the
game.

Friendship.

By friendship I mean the greatest
love, and the greatest usefulness, and
the most open communication and the
noblest sufferings and the most exem-
plary faithfulness, and the severest
truth, and the heartiest counsel, and
the greatest union of mind of which
brave men and women are capable.—
Jeremy Taylor.

A Dilemma.

"A pessimist never seems to have a
good time?" "How can he? All the
comfort he can possibly get out of life
is hoping that his opinions are entirely
erroneous."

Moonlight During the Arctic Night.

The moon continues to shine at
the north pole during the six months'
absence of the sun.

An Aim in Life.

An aim in life is the only fortune
worth finding; and it is not to be
found in foreign lands, but in the
heart itself.

Uncle Ezra Says:

"You'll find that the rustler's main
object in wak'n' you so early in the
mornin' is to tell you it is time to
git up to feed him."

Live Now.

Don't spend all your time getting
ready to live, but "live now!" There
will never be a time when you will be
any nearer ready. The mere fact that
you are aiming in the right direction
proves it.

Childhood's Early Years.

Sometimes children are sent to
school to get rid of them; but the ideal
is that the first seven years of the
child should be spent at the moth-
er's knee.

On with the Dance.

She—"I'm afraid I'm tiring you
rather." He—"Oh, not at all. I used
to be attendant to the elephant house
at the zoo."—Meggendorfer Blaetter.

Quality of Leadership.

You can never lead unless you
lift.—Edward Everett Hale.

Earth's Most Desolate Spot.

Not only are human inhabitants un-
known south of Cape Horn, more than
2,300 miles from the south pole, but,
except sea forms, within that space
animal life and vegetable life are prac-
tically absent save a few low forms
of hardy lichens and mosses.

Descriptive.

"What kind of looking girl is this to
whom you have become engaged?"
asks the old cigar manufacturer of his
son, who has come home from college
with the glad news. "Oh, she's a lead-
er!" enthusiastically replies the
youth. "Colorado claro hair and a pan-
atela shape, dad!"—Judge.

Statesmanship.

"How did that man come to be
regarded as an authority on the tariff?"
He never impressed me as much of a
student. "No," answered Senator
Spangh. "He didn't spend his time
reading books or theorizing. He found
out what his constituents wanted, and
got it."—Washington Star.

The Married Voice.

A dramatic critic has been saying
that our most accomplished players
cannot reproduce on the stage the
"married voice." Even when they are
married. There is a peculiar domes-
tic note—used at home—which can-
not get over the footlights and was
never meant for publicity.

Remedy for Scald.

A scald is one of the most painful
injuries. One of the best healing rem-
edies is made by beating castor oil
and white of egg together until a
cream is formed.

Foxy Dips.

"What a queer title Dips has given
his new novel; he calls it 'Solid Ce-
ment.'" "Not so queer when you come
to think of it." "How's that?" "It
makes the best cellar."

The Infinite Purpose.

God intends no man to live in this
world without working; but he in-
tends every man to be happy in his
work.—Ruskin.

Too Much Variety.

"Bliggins is a genius," said the cen-
sorious friend, "but he won't stick to
any one thing. He has too many dif-
ferent kinds of ability." "Yes, he's
unfortunate. There is no use of being
a genius if you're going to be hetero-
genous."

Almost Perpetual Rain.

Ireland about 208 days in the year.

CHILDREN'S DAY!

We Want to Make Saturday, July 16, the Biggest Day of Our Great Dissolution Sale,

and to end we announce A SPECIAL SALE OF BOYS' AND CHILDREN'S SUITS never before equalled in this State, both for the liberal reductions in prices and for quality, style and workmanship of the garments.

See Mr. Collier or call No. 45 either phone at Millersburg and your wants will be attended to promptly.

Eld. Morgan Writes from Athens.
(Continued from Page 1.)

cities and even by the Athenians who felt that it was useless to fight against so great a force. Belub planned to get his forces shut up in this way rightly guessing that when the fatal hour came the courage of the Greeks must assert itself and that they would fight their way out.

"I seemed to see to our left an island overlooking the bay, the women and children of Athens who had fled here from the city already in the hands of the Persians ready to run for their lives but waiting with straining hearts the result of the battle. I heard the Greek plan raised and the silver trumpet's call and the wild shout of these matchless Greeks as they bore down upon the thronging enemy.

"How my soul was moved and is now as I write for it all went so much to them then and to us now. The victory of the Persians then at Salamis would have meant Orientalism dominant in all Europe perhaps, as it is now in Turkey, and how much civilization would have been retarded no man can tell. You see how my very blood is drinking in a thousand influences, impressions and memories.

"We drove from Piraeus to Athens, had our service and communion before dinner at 8 o'clock, at which time my good friend, Wallace Thorp, preached at splendid sermon.

with eagerness as I saw the prison in which Socrates was confined and where he was forced to drink the hemlock. I saw where Themistocles, Thucydides, Aristides, Demosthenes, Sophocles and Deschylus had lived and spoken. I saw the Parthenon, the most beautiful temple in the world and the temple of the goddess of Thesus, the best preserved of all Greek temples, the Odon, too the Stadium, the temple of Jupiter Olympus, all on or around a hill, the most notable in secular history in all the world.

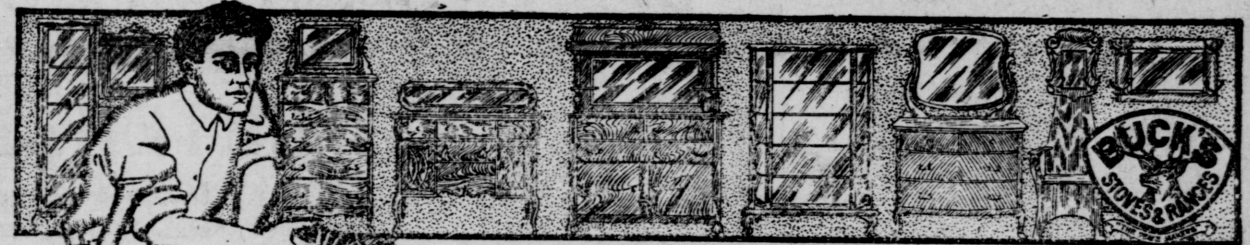

"On Board Yacht May 31.
"Since I wrote you at Athens we have visited Corinth, Delphi and Olympia. There is little but ruins each of these places but they are wonderfully interesting, besides the cruise on the 'Athens' has been ideal. We have gone up and down and back and forth until I really feel that I know something about Greece and Greek waters. We have had rough seas but once and that was night before last on our way down the West coast of Greece from the Gulf of Corinth to Olympia. At four o'clock in the morning I was awakened by the slowing down of the engines. The yacht was tossing violently and hearing the rattle of the anchor chains, I looked out of a forward port hole and saw the sailors at work on the prow deck, and being nearly drowned with the flying waters.

"I dressed and climbed staggeringly to the deck. There was no wind. It was just dawn. The sky was clear but South of us there had been a great storm and the immense swells we had encountered were the result. I shall never forget the brave fight our little ship made. The Captain had slowed the engines down to their lowest speed, so as not to drive the frail ship too deeply into the waves and was letting her ride freely. The big anchors hanging outside at the prow acted as a drag and made it more difficult for the yacht to recover after her plunges and he was having those taken up on to the deck, and it was the rattle of the chains which awakened me.

"It was wonderful to see the sailors at work out there on the prow. They were drenched with the roaring waters but stuck to their task. When a specially big wave would bear down upon us the Captain would cry out a warning to them and they would hold on for dear life. It was a wild, grand sight and I enjoyed it.

"We came into port several hours late and after the day at Olympia it was decided, as the sea was still very rough to lie at anchor until morning, or until we had better weather. This delay made it impossible for us to stop at Corfu, our last stop in Greece, and make our schedule. We are now on our way to Brindise, and from there we go on by yacht to Venice. Here our party breaks up. So it looks after Thorp leaves me in Switzerland I will have to tour Europe alone. I want to have a good rest in the Alps. I am well. It is wonderful how I have stood the trip. I have gained much in weight and strength, and am truly thankful that I have had this wonderful experience. My heart turns often and loyally to all the dear friends of the Paris church.
